

The Palisades at Broadmoor Park: *Breaking the Mold and Raising the Bar in Senior Living Communities*

This fall, The Palisades opened in southwest Colorado Springs—and brought the industry of a senior living community to a whole new level.

The new community, located in the Broadmoor area, nestled at the base of Cheyenne Mountain, brings components to senior living and care that have been missing. The Palisades is a community that encompasses both a solution for living and growing, as well as health and wellness care.

Live It Up!

This revolutionary concept offers options of Independent Living, Assisted Living and Memory Care. Along with those come an experienced, caring staff that seeks to find the best in daily care and activities for each of our residents.

Dining choices abound for The Palisades' residents. Small and quaint dining rooms are located on each floor of the Assisted Living and Memory Care communities

which provide a great sense of belonging and social opportunities. Residents of the Independent Living community can enjoy the third floor

relationships with the University of Colorado at Colorado Springs' Gerontology department and the Beth-El College of Nursing that are

advancement in elderly care and studies. These programs assist residents in the development of physical and intellectual fitness. Residents have many choices for continued educational, social, and cultural involvement. These programs provide opportunities for personal growth and give the residents freedom to contribute to their community. From hands-on training and learning with students in the community, to awareness programs that strengthen our efforts in research, education and individual growth, we strive to be leaders in the senior living industry.

Our UCCS Partnership

Activity	An active lifestyle promoted by personal trainers improves stamina, strength, balance and flexibility.
Sense of Purpose	Challenge your mind, make new friends, keep old ones—engage with your community.
Wellness	Through the Beth-El Health Clinic, we've partnered with UCCS to bring you on-site Certified Nursing staff, health monitoring & health and wellness classes

dining room, the first floor cafe, or enjoy cooking meals in their own kitchens.

Back to School

The Palisades is also incredibly proud of their partnerships. They have developed strategic

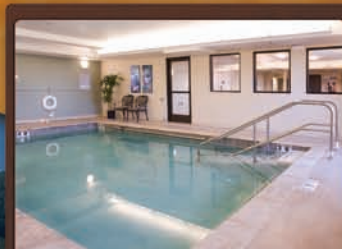

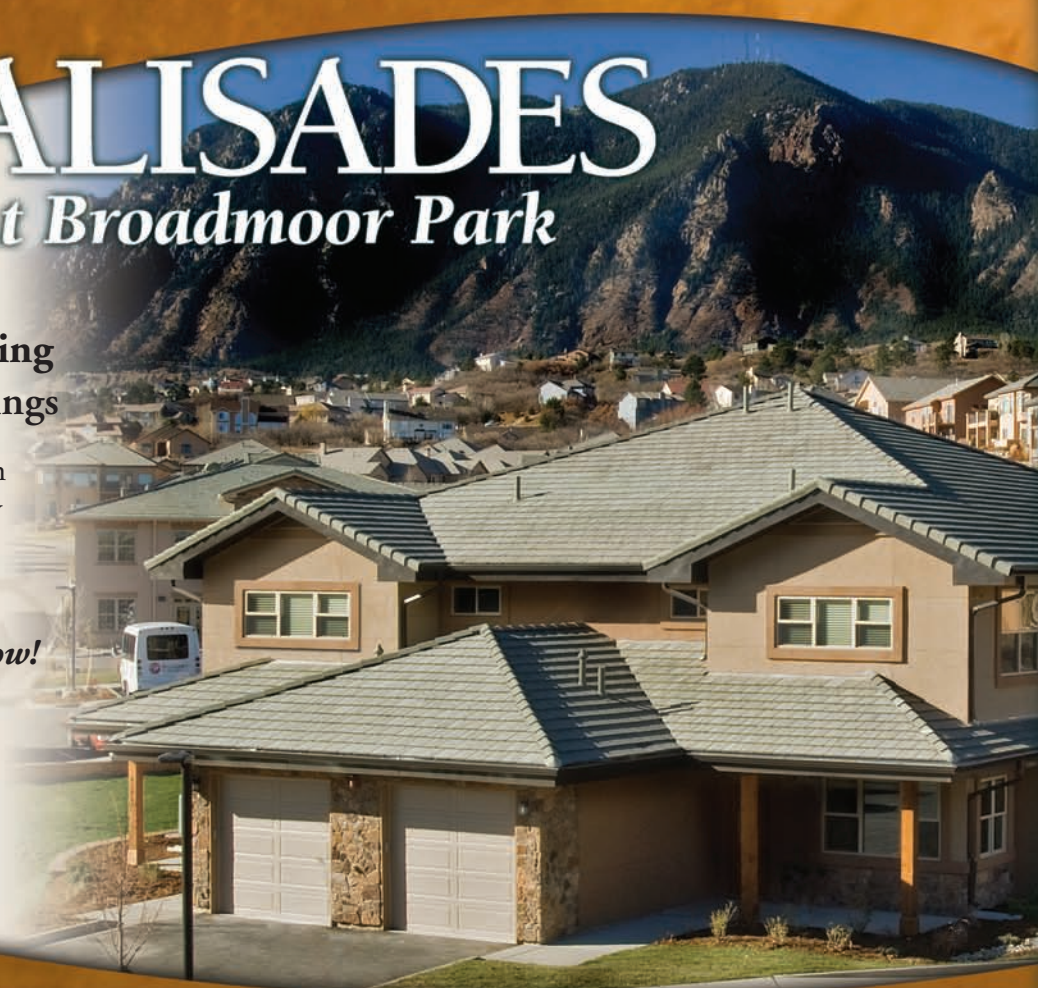

the first of their kind in this region, possibly the entire country. To enrich the daily lives of its residents, The Palisades and their partners have designed customized health and wellness programs. This university program is nationally recognized and lauded for its innovation and

All That's Missing is You!
